DESIGNED
FOR EVERY
TYPE OF
SEWING

Welcome to... sewing the way you want it to be!

These contemporary styled, well illuminated, free arm sewing machines with easy to use computerised features are perfect to take your sewing to a new level. The larger arm space and superior feeding system ensure they are equally suited to both larger projects and precision sewing.

We know that reliability is the most important feature. When you sit down to sew on your Janome atelier machine you can be confident that it is up to any task – from stitching the sheerest silks to the thickest quilt sandwich layers. When using lightweight fabrics or piecing quilts, a straight stitch needle plate makes all the difference. Our One Step™ Plate Converter allows you to switch from the zig zag to the straight stitch plate at the touch of a button – no screwdrivers required!

POWER TO SEW

With the atelier series of machines you will find convenient features to make your sewing easier! There is an amazing range of stitches and buttonholes for any sewing task and the backlit LCD screen helps make choosing them even easier. Enjoy the easy to use time saving features; a one-hand needle threader, an automatic thread cutter, an easy reverse button, a locking stitch button, a memorised needle up/down, a speed control slider, and a start/stop button for stitching those long seams.

There is ample work area with a spacious 210mm (8.25") bed space to the right of the needle and 120mm (4.7") of vertical clearance—lots more roll up room for quilts.

Ultra-bright LED lights in various locations illuminate the bed of the machine, providing a perfectly balanced well-lit work area.

KEEP DREAMING BIGGER, THE atelier SERIES IS READY TO KEEP PACE WITH YOUR IMAGINATION.

THE atelier series

MUST HAVE FEATURES

Easy Set Bobbin Case and Cover

The specially designed bobbin case and cover mean there's no need to pull long thread tails up and through when you first thread the machine. Slip the bobbin thread in the cover plate guide; the built in cutting blades trim the tail to the correct length for a super-clean start to your stitching line. After the initial threading, the auto-thread cutter takes care of trimming and re-setting the tails each time.

Convertible Free arm for Circular Sewing

Remove part of the machine base to reveal the narrow protruding arm under the needle area making it easy to sew cuffs, trouser legs and other tubular objects. Also helpful for sewing in hard to reach areas of a project.

One-hand Needle Threader

When depressed, the one-hand needle threader stays in the down position for more control and extra easy threading.

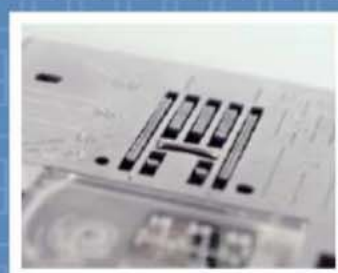

One Step™ Plate Converter

Using the right tools at the right time is important in sewing. When using lightweight fabrics, or piecing quilts, a straight stitch needle plate makes all the difference. Our One Step™ Plate Converter allows you to easily switch and use the perfect plate for your project. Simply press a button to release one plate; then snap a new one in place – it takes only seconds, with no screwdrivers required! The enhanced straight stitch plate allows for users to move the needle slightly on the straight stitch plate for scant ¼" seams. This system also includes a sensor that will only allow an appropriate stitch to be sewn when the straight stitch needle plate is in place, so you never have to worry about breaking a needle! Both needle plates are included as standard accessories with the atelier 5 and atelier 7.

Superior Feed System Plus (SFS+)

The Superior Feed System Plus features a unique 7-piece feed dog system that stays parallel as it moves up and down, maintaining constant contact with the fabric. This 'flat feed' technology provides better control, whether sewing forward or backward.

Take full advantage of the atelier's features with their terrific selection of included feet and accessories. Included are the essentials for everyday sewing as well as a selection of speciality feet to help you explore new sewing styles. In addition there are optional speciality kits available.

atelier3

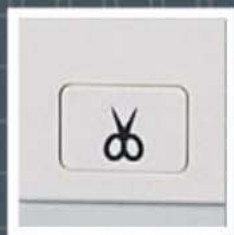

A clear LCD screen helps you select from the 120 stitches including 7 auto 1-step buttonholes and alphabet. LED lighting, an easy set bobbin, a needle threader, a speed control slider, a start/stop button, auto lock and auto thread cutter help make your sewing easier.

Features

- FULLY COMPUTERISED, FREE ARM
- LARGE ARM & BED SPACE 210MM (8.25")
- POWERFUL – UP TO 820 SPM
- 120 STITCHES INCL. 2 BUILT-IN ALPHABETS, EUROPEAN ACCENTED & CYRILLIC LETTERS
- 7MM STITCH WIDTH
- 7 STYLES OF AUTO 1 STEP BUTTONHOLES
- LCD TOUCH SCREEN
- EASY SET JAM PROOF DROP-IN BOBBIN
- VARIABLE STITCH LENGTH & WIDTH
- AUTOMATIC TENSION CONTROL
- MEMORISE STITCH & ALPHABET COMBINATIONS
- STARTOVER FUNCTION
- SUPERIOR FEED SYSTEM (SFS+)
- DROP FEED FOR FREEHAND WORK
- BUILT-IN NEEDLE THREADER
- AUTO THREAD-CUTTER (SCISSORS BUTTON)
- MAXIMUM SPEED CONTROLLER
- PROGRAMMABLE NEEDLE UP/DOWN
- AUTO-LOCK STITCH FEATURE
- START / STOP BUTTON
- ADJUSTABLE FOOT PRESSURE
- TWIN NEEDLE CAPABILITY
- CLOTH GUIDE
- 4 WHITE LED LIGHTS
- QUICK SNAP ON FEET
- SEMI-RIGID CASE
- MULTI-LANGUAGE
- WORLDWIDE VOLTAGE
- INSTRUCTIONAL DVD

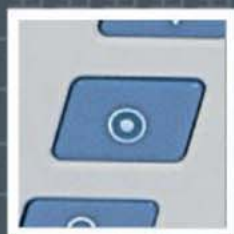

Optional quilting kit with table available
