The Premier
Embroidery
Software for
Mac and PC

CHROMA SOFTWARE

Chroma, Ricoma's new proprietary software, is designed to allow both the novice and experienced digitizer to create even the most intricate designs with ease and speed. For beginners, Chroma can be used to automate the digitizing process, essentially eliminating the learning curve. For the advanced, the software's built-in styles, customization of tools and hotkeys speed up the lengthy digitizing process.
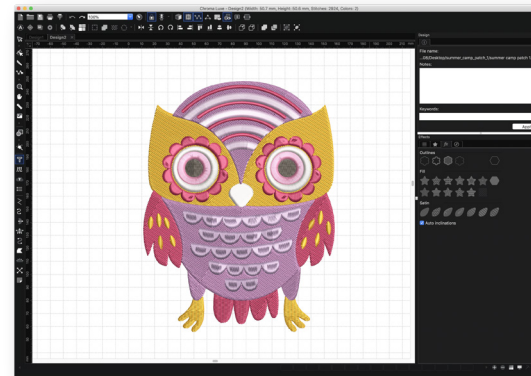

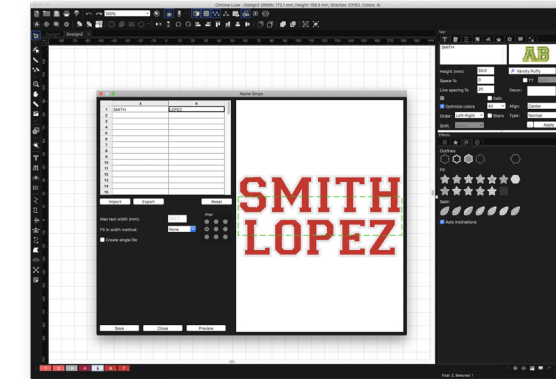

CHROMA FEATURES

- Cloud-based software. CDs and dongles are no longer needed, saving time, costs and hassle.
- Lifetime FREE upgrades whenever you are online
- More affordable with more powerful tools for beginners and professionals
- Multiple languages built-in
- Available for both native Mac OS and Windows
- Background color can be changed to personal preference
- Training videos for you to learn at your pace
- Lifetime support
- Friendly and easy-to-use interface

NAMES & NUMBERS

A perfect tool for sports teams, the names and numbers feature allows you to easily apply stitch fills to multiple names and numbers and export them as separate files with the click of a button.
APPLIQUÉ

Easily convert letters to appliqué with pre-defined appliqué fonts or convert designs to appliqué with the easily accessible satin and run stitch features.
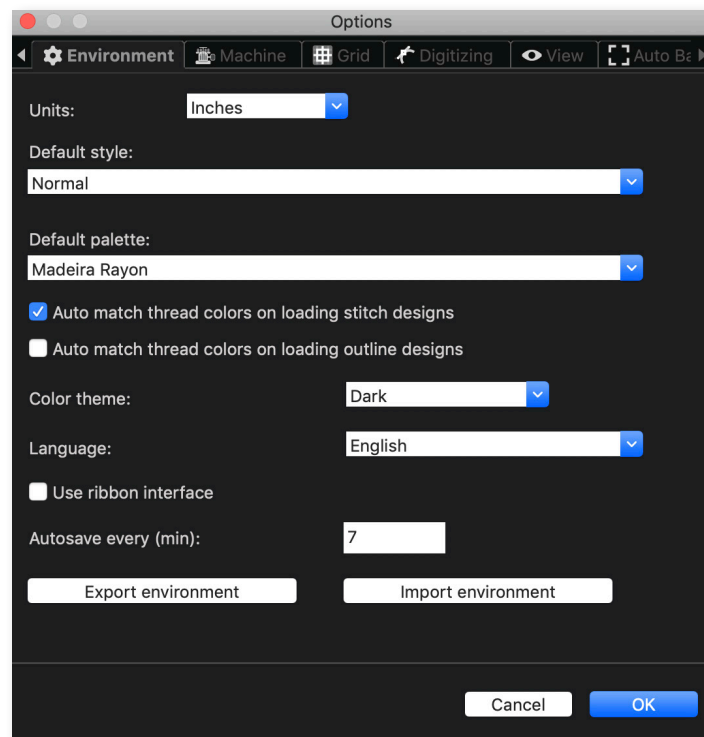

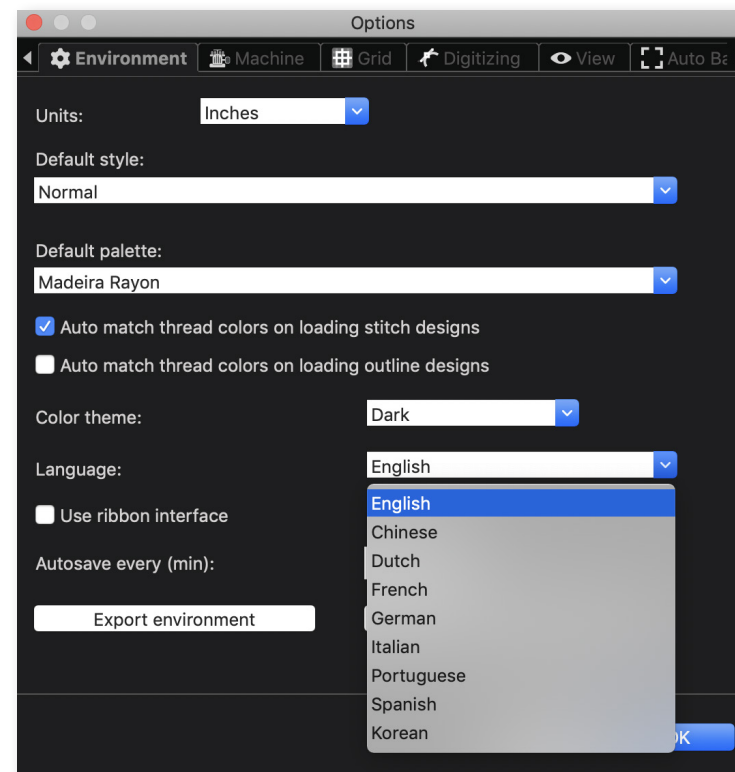

TEXT ON A PATH & MONOGRAM

Create beautiful custom monograms using the preset monogram font options or create unique text designs on shapes, paths and spirals.

🗨 SUPPORTED LANGUAGES

・English
・Chinese
・Dutch
・French
・German
・Italian
・Portuguese
・Spanish
・Korean

✂ TOOLS

・Slow redraw simulates sew-out
・Automatic digitizing and cross stitching wizard
・Quick conversion to multiple stitch types
・Pre-digitized embroidery designs
・Auto-density adjusts to design size
・Batch design conversion and exporting
・Fill pattern creator
・Multiple underlay stitch options
・Auto-digitize photorealistic embroidery with Stitched Snapshots

☰ WORKSPACE FEATURES

・Customizable workspace
・Adjustable grid/guidelines
・Advanced hot keys
・Multiple design view options
・Embroidery sequence manager
・Color palette and background color customization

𝕋 TEXT EFFECTS

・Adjustable kerning on lettering
・Monogram fonts
・Lettering on multiple paths including vertical lines, arcs and spirals
・Pre-digitized fonts and TrueType fonts
・Pre-digitized appliqué fonts
・Pre-digitized small lettering and puff fonts
・Transform, stretch, rotate and slant text using handles
・Fill shapes with text using bubble text
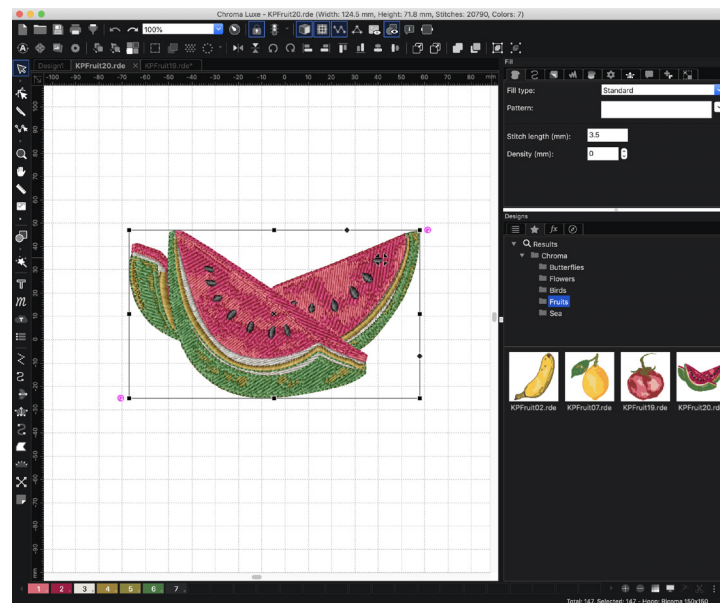

CHROMA inspire

inspire

Chroma Inspire pushes the editing boundaries of lite digitizing software. With Chroma Inspire, you can auto-digitize and edit designs, create lettering, convert elements of your design to different stitch types, resize designs, rearrange color stops and plenty more.
