

DIAMOND 8500N

HIGH-SPEED LOCKSTITCH SEWING MACHINE

The Diamond 8500N is a lockstitch sewing machine with an adjustable stitch length and reverse function, and is easy to operate. For factory or home use, this high-speed sewing machine, with low noise and little vibration, is suitable for sewing many types of light to heavy materials such as silk, cotton, leather, etc.

The 8500N is supplied with stand (on castors), table (1075mm L x 615mm W), and motor.

A variety of needles, accessories and attachments are available separately to enhance your sewing, such as zipper feet, piping feet, hemming and binding attachments.

Other optional extras include: Standard Light, Halogen Light, Chair, Stand without Castors, 3-Phase Motor (for factory use).
