

baby lock

imagine

Quick and easy achievements

Sewing is a hobby that offers you a high degree of individuality, and allows you to follow your artistic inclinations, exchanging ideas with fellow enthusiasts. This is the baby lock ideal!

The imagine will convince you with its easy handling and superb results. Your stitches always look perfect, no matter what material you choose. A special thread delivery system determines the length of thread needed for the stitch that you select. A sensor under the presser foot detects any difference in the fabric thickness and adjusts itself further.

You can extend the seam width to 9 mm to prevent the edges of coarse fabric from fraying. When changing the stitch width, the cutter and chaining finger move together in the same direction. The result: perfect stitches at any time. See for yourself!

Time for rest and recreation

The baby lock brand has been appreciated for its ease of use for decades. Both beginners and advanced sewers can enjoy the machines' special technical features, such as the handy air threading system, and all of the possibilities they offer. Even if you are using the machine for the first time, you can focus on your project and start sewing immediately without tiresome threading. Everybody loves the outstanding sewing results, no matter what fabrics and threads are used.

Jet-Air Threading™ System

Developed by baby lock in 1993
