Powerful Performance for Every Embroidery Need

The Swift 2 is ready for your most challenging embroidery projects. With wide head spacing and a large embroidery area, it easily handles oversized designs and bulky items like jackets, bags, and home décor. Speeds up to 1500 stitches per minute (Independent presser foot system) let you finish projects quickly while maintaining quality.

The new independent presser foot system adapts to layered or uneven fabrics for smooth, precise results on caps, jackets, and delicate garments. A sleek head design and steel stand with built-in storage keep your workspace organized and professional.

EXCLUSIVE FEATURE

Independent Presser Foot
Each needle has its own adjustable presser foot, reducing thread breaks and delivering smoother stitching on uneven or layered fabrics.

**Larger Embroidery Area
(22.0 × 14.6 in / 560 × 370 mm)**
Create bigger designs and easily work with bulky items like jackets and bags.

**Up to 1500 Stitches Per Minute
(Independent presser foot system)**
Complete projects faster without sacrificing stitch quality.

Modern Head Design
A sleek, updated look that matches the advanced performance of the Swift 2 Series.

Steel Stand with Built-In Storage Panels
Keep hoops, frames, and tools organized and within reach while maintaining a clean, professional workspace.

Smarter Features for Seamless Embroidery

Advanced technology makes the Swift 2 easy to operate while delivering smooth, precise stitching. Its 10.1” HD full-color touchscreen gives you instant access to designs and controls, making setup and adjustments effortless.

Real-time thread monitoring watches for breaks or tension issues, helping you avoid interruptions. Motorized thread clamps secure threads for clean cuts, while RGB multicolor lights alert you to any thread breaks at a glance. With these smart features, every project runs seamlessly from start to finish.

10.1” HD Full-Color Touchscreen

Simple, clear navigation for selecting and controlling designs.

Real-Time Thread Monitoring

Detects thread issues instantly and helps prevent interruptions.

Motorized Thread Clamp

Keeps threads stable for cleaner trims and sharper embroidery.

RGB Multicolor Lights with Thread Break Detection

Lights up to show thread color and flashes for quick break alerts.

Designed for Effortless Embroidery

From hooping to stitching, the Swift 2 makes every step effortless. Quick frame clamps let you change hoops in seconds, so you can move from one project to the next without slowing down.

The slim sewing arm makes it easy to embroider sleeves, pockets, and other hard-to-reach areas, opening the door to more creative projects. And with power-loss protection, your progress is always safe, allowing you to pick up right where you left off.

Slimmer Sewing Arm

The narrow sewing arm makes it easy to embroider sleeves, pockets, and other hard-to-reach areas while opening the door to more project possibilities, from small accessories to detailed garment work.

Tool-Free Quick Frame Clamps

Change hoops quickly and easily—no tools required.

Emergency Stop Button

The system initiates immediate and unconditional termination of all machine functions upon emergency activation, ensuring failsafe protection against human harm and mechanical damage.

Powerful, Versatile, and Ready for Any Project

The Swift 2 can do more than you ever imagined. With multiple needle options, you can tackle complex projects and optimize your workflow by pre-setting threads for faster color changes. From structured bags to delicate baby clothes, this versatile machine makes it easy to embroider a wide range of items.

Power Consumption

0.2 kW

Smart Control Panel Features

Operate your Swift 2 with ease using its high-definition touchscreen panel. Designed for smooth navigation and simple operation, the panel puts every function at your fingertips so you can focus on creating. Store thousands of stitches, preview designs before you stitch, and access maintenance tools and settings right from the home screen.

Easy-to-Use Touchscreen

Intuitive touchscreen design with smooth navigation and thumb-friendly controls—perfect for both beginners and experienced users.

Massive Design Storage

Holds up to **100 million stitches** or 1000 designs, so you can work on large projects or store your entire library.

Multiple File Formats Supported

Reads popular embroidery file types like DST, TBF and more.

Frame Offset and Outline Settings

Easily adjust frame positions and outline stitches for clean, accurate appliqué embroidery.

Supports Multiple Languages

Operate the panel in over 15 languages including English, Spanish, Chinese, Arabic, Vietnamese, French, and more.

Wi-Fi & Network Capable

Connect to your network for seamless design transfers and software updates—no cables needed.

Hoop-Friendly Settings

Comes with **preset hoop parameters** to help you avoid hitting the frame—saving time and avoiding mistakes.

Automatic Color Change

Easily switch between threads during multi-color designs with built-in automation.

Maintenance Shortcuts

Built-in **178° and 201° movement keys** make machine maintenance simple and accessible.

Fast Design Tracing

Trace your design placement with a **one-touch button** directly from the home screen.

Automatic Thread Trimmer

Cuts threads between color changes or after a design finishes—saving time and cleanup.

Design Preview

Get a clear, detailed **visual preview** of your design for better accuracy before you stitch.

Screenshot Tool

Capture your screen to record settings or troubleshoot with support when needed.

Hoop Sizes & Quantities

The Swift 2 comes with everything you need to embroider just about any item. Each machine includes a variety of hoop sizes so you can embroider small designs like left-chest logos and large designs on bags, towels and more.

Hoop A - 90 × 90 mm (3.5 × 3.5 in)

Quantity by Machine Type:

Single-Head: 2 hoops

Hoop B - 120 × 120 mm (4.7 × 4.7 in)

Quantity by Machine Type:

Single-Head: 2 hoops

Hoop C - 150 × 150 mm (5.9 × 5.9 in)

Quantity by Machine Type:

Single-Head: 2 hoops

Hoop D - 190 × 190 mm (7.5 × 7.5 in)

Quantity by Machine Type:

Single-Head: 2 hoops

Hoop E - 290 × 290 mm (11.4 × 11.4 in)

Quantity by Machine Type:

Single-Head: 2 hoops

Hoop F - 540 × 360 mm (21.3 × 14.2 in)

Quantity by Machine Type:

Single-Head: 1 hoop

Everything You Need for Caps

With the included cap attachments, you can embroider a variety of cap styles. Each Swift 2 comes with a hoop station, cap rings and cap driver(s) for all of your cap embroidery needs.

Cap Rings

Quantity by Machine Type:

Single-Head: 2 rings

Hooping Stations

Quantity by Machine Type:

Single-Head: 1 hooping station

Cap Drivers

Quantity by Machine Type:

Single-Head: 1 cap driver

Extended Embroidery Area(*Optional)

The Swift 2 extended table and sash frame is perfect for embroidery on oversized items such as drapery, blankets, banners, mattress borders, wedding dresses, quilt covers and much more.

Wide Embroidery Frames for Single-Head Machine

Available in two sizes:

560 × 370 mm (22.0 × 14.6 in)

1200 × 370 mm (47.2 × 14.6 in)

Add-Ons & Accessories for Every Project

These attachments make hooping and adding embroidery effects a breeze. Embellish your designs with sequins, boring or cording; or use specialty hoops for all embroidery needs.

Sequin Device

Attach the optional sequin device to your embroidery machine to add a pop of sparkle to your designs.

Cording Device

Easily create an embroidery effect with the cording device, which lays cord on fabric and attaches the cord with transparent zigzag stitches.

8-in-1 Hoop Set

Includes 8 frames that make embroidering hard-to-reach areas easier than ever before. Designed for non-hoopable, difficult items such as shirt pockets, socks, backs of caps, shirt sleeves, collar tips and more.

Belt Hoop

With an 8 × 4 in (200 × 100 mm) embroidery area, the belt hoop allows ample room for embroidery on belts and straps.

Mighty Hoop Magnetic Hoops

This magnetic hoop snaps together to make hooping any type of flat garment easier than ever.

Double Bead Device + Sequin Device

Seamless automatic switching between dual metallic sequins and dual beads enables high-speed production of opulent, multi-layered embroidery embellishments.

Bead Device

Explore your creativity to include intricate bead work with the optional bead device.

Boring Needle

This specifically designed needle creates intricate embroidery by piercing the fabric, cutting it into various shapes, and leaving holes in the item.

Robot Frame

Embroider on difficult-to-embroider and unusually shaped items such as bags, shoes and purses with the robot frame.

Laser Device

With this easy-to-install tracing tool, there's no more hitting hoops — just simply watch the laser pointer trace the design in seconds.

Startup Package

The Swift 2 Startup Package includes all the essential add-ons and equipment you need to begin embroidering as soon as your machine arrives. From premium accessories and high-quality supplies to helpful software and expert support, everything is included to help you start creating without the need for extra purchases.

Heavy-Duty Steel Stand

Provides sturdy support and easy mobility with lockable wheels—perfect for a secure and flexible workspace.

Hoop and Cap Attachment Set

Includes a full range of hoops and two cap attachments so you can embroider a wide variety of items, from flats to hats.

Chroma Digitizing Software

Feature-rich and easy to use, Chroma lets you digitize or edit embroidery designs with precision and flexibility.

Madeira Thread & Supply Starter Kit

A curated set of professional-quality threads, bobbins, backing, and more to get you stitching right away.

Otto Cap Starter Kit

Comes with a selection of blank Otto caps—ready to embroider straight out of the box.

3-Month Hoopmade Subscription

Explore a design library filled with ready-to-use files, templates, and creative inspiration tailored to your machine.

Unlimited Training & Lifetime Support

Enjoy hands-on training, personalized guidance, and lifetime technical support available 7 days a week—even after hours.

The items above are only included in the startup package when buying directly from Ricoma International Corporation in the United States.
